

Amifruit Candied Orange Peel Strips

Orange peel is meticulously candied in syrup, replacing the natural water content with sugar syrup through a process that demands close observation, adjustments in sugar syrup density, and many hours of cooking. The outcome is a preserved fruit with excellent flavor, a glossy appearance, and a pleasantly chewy texture. These candied orange peels find use in decorations or can be dipped in couverture for added appeal. Typically, they are cut into strips with a length ranging from 4.5 to 5.5 cm.
