

Country Castle Limburger

Limburger cheese is a soft, surface ripened cheese. It is world renowned for being one of the most pungent cheeses in existence. Though Limburger cheese is definitely categorized among those foods that are an 'acquired taste,' Limburger cheese has legions of fans. It can taste very strong, spicy and aromatic, but this can be controlled by the frequency of washings, and the amount of aging time. There is a hint of sweetness to this cheese as well. When chilled, it does not have such a pronounced odor.
