

Creekstone Farms

Creekstone Farms defines quality as excellence or superiority. They strive for that level of quality in everything they do. The Creekstone Farms program is unique to the industry because it combines superior Black Angus & Duroc genetics, exceptional cattle and hog management practices, carefully controlled high-quality feeding and state-of-the-art processing.

From focusing on genetics to closely monitoring processing and production, is all in the name of quality. These standards for quality allow them to produce consistently outstanding products that proudly bear the Creekstone Farms name. They work hard to provide a system that is unmatched in the beef industry and helps them deliver consistently high quality products.
