

Deca & Otto Dulce De Leche

Deca & Otto's Dulce de Leche is the most sophisticated version of this traditional dairy sweet. In their process, the buffalo milk is heated and sweetened to obtain a very elegant and aromatic paste. It has a silky and smooth texture, a shiny-bronzed color, and a natural sweet taste. It is mostly used and enjoyed in desserts such as cheesecakes, crêpes, ice creams, custards, or simply on a spoon.
