

## Hildon Sparkling Natural Mineral Water-330 ml

The award-winning taste of Hildon Natural Mineral Water is born from their exceptional Estate in the Hampshire countryside. They reap the jewels of a fifty-year journey of filtration and purification, to bring water as crisp as the English country air. The pristine taste you savor when drinking Hildon Natural Mineral Water is the product of fifty years of filtration through the Test Valley's unique chalk strata, that lies deep beneath the Hildon Estate. Their stringent externally audited systems ensure the composition of Hildon Natural Mineral Water is remarkably consistent. In addition to being certified by the ISO (International Organization for Standardization) for both our quality and environmental management processes, we can attest our bottles' calcium, nitrate and mineral content to the milligram.
