

## Kerrygold Naturally Softer Pure Irish Butter

Kerrygold Naturally Softer Butter is unlike anything else in the world. The milk that grass-fed Kerrygold cows produce in the summer months is highest in naturally softer milkfat. We use a special process to gently churn this summer milk to create a softer, more spreadable natural butter. The flavor is creamy, the color remarkably golden, and hormone-free. Spread on the outside of soft bread and cheese sandwiches and grill. Or make your own savory spreadable butter with lime and chili powder and top a flatiron steak or grilled corn in the husk.
