

Somerdale Harlech Cheddar-Wheel

Somerdale Harlech is part of Somerdale's 'Heraldic' range of specialty blended cheddars. Creamy cheddar is blended with horseradish and parsley producing a tangy and zesty flavor with a tingling edge of heat. Melt this on a steak or partner with cold roast beef in a sandwich for an absolute flavor sensation. From a drink's perspective, Harlech needs a strong partner such as a robust red wine or dark ale.
