

Somerdale Wensleydale & Blueberries-Wheel

Light and creamy, with a hint of sharpness, Wensleydale is a perfect partner for fruit and blueberries are no exception. These flavors are locked in by coating the wheels in a generous wax seal, deep blue in color, enhancing the appearance. Somerdale Wensleydale & Blueberries makes for a great dessert cheese but is so well balanced that it stands well on its own and makes a great addition to a cheese board. For drink pairings, this cheese would favor a crisp white such as a Sauvignon Blanc, or a bubbly Prosecco. For red wines, try a Malbec or Pinot Nior. Lovers of beer should not ignore this cheese as it also partners well with authentic wheat beers.
