

Somerdale Wensleydale & Cranberries-Wheel

Wensleydale is the perfect cheese to eat with fruit. Creamy with an open texture, Wensleydale is one of the oldest cheese varieties in England as monks were first known to be making Wensleydale in the 11th century. Wensleydale has a natural sweet acidity that complements fruit, best of all cranberries. Somerdale Wensleydale & Cranberries is free of artificial sweeteners and made with only natural ingredients. Somerdale Wensleydale & Cranberries makes for a wonderful dessert cheese when served on sweetened or ginger crackers and is also great crumbled over a salad. For pairing with your favorite tippie, try a glass of bubbly or a well bodied Port. Fruity ales would also be a good match.

Product Details

Item	011491
Brand	Somerdale
Sold By	CS
Pack Qty	2
Pack Size	4.4 LB (RW)
Case GTIN/EAN/UPC	10735006005397
