

Trex Corp Inc.

Trex Corp Inc was established in 1996 in the San Francisco Bay area and has been responsible for providing quality service for importing and exporting meat products. Their most sought after being the Japanese Wagyu beef.

There are four breeds of Japanese Wagyu: Japanese Black Cattle, Japanese Brown Cattle, Japanese Shorthorn Cattle, and Japanese Polled Cattle. They are known for their fine and abundant marbling and for smooth muscle texture. Three key elements that make Japanese wagyu so unique are 100% wagyu genetics, special feed ration, and extreme care. First, Japanese wagyu cattle originate from either one of the four breeds mentioned above. Second, they have special low energy diet consisting of corn, barley, and on occasion roasted soy beans. They are fed for 600 days versus US cattle of 150 days. Third, Japanese wagyu are under the most extreme care. Japanese wagyu cattle are never implanted with growth hormones.
